

RE: Communication with parents for students 18 years of age or older

Date: _____

TO: Principal

Student name (please print): _____

Date of birth (please print): _____

School (please print) _____

I understand that Peel District School Board staff, including teachers and administrators, routinely communicate with the parent(s)/guardian(s) of an adult student (age 18 or older) regarding educational matters.

However, this letter is written to provide direction to all personnel, including teachers and administrators, at my secondary school (named above) that all further communication by school staff regarding educational matters must be with me only. I direct the school to no longer communicate with my parents or others regarding educational matters.

This direction is in effect until further written notice is provided to the school.
