

SOCIAL MEDIA, CHILDREN AND YOU

A presentation for parents and educators from

Steve Chapelle

Social media users of all ages continue to create problems for themselves and others due to their failure to appreciate that social media are not private places.

This message can be understood with a thorough examination of three themes:

1. Careless social media usage can enable an adult to mislead and endanger a child.
2. All messages and posts can be traced to their source.
3. Everything you send and post now resides on the computers of strangers... forever.
