

Visual Arts: Computer, Grade 11 – University/College Preparation

AWS 3M0

This course uses advanced techniques for creating art and design works using computers and a variety of digital media. Students will work in graphic design, advertising, illustration cartoon animation, and narrative film and video. They will develop a mastery with the creative process, and become more confident and articulate through in-depth critiques. Thematic connections are made between student practice and art history from the 19th century to the 20th century.

Prerequisite: A grade 9 or 10 Visual Arts course (AVI 100, AVI 200, AWS 200, AWF 200)
