

**Financial Accounting Principles, Grade 12 – University/College Preparation
BAT 4M0**

This course expands on concepts introduced in BAF 3M0. Students will learn real world accounting that will benefit them in both post-secondary business programs, as well as their personal lives. This course expands students' knowledge of sources of financing, further develops accounting methods for assets, and introduces accounting for partnerships and corporations.

Assessments are varied and include recording, analyzing, and reporting accounting information for businesses. Students engage in a mix of individual and group activities, through practice exercises and case studies.

Prerequisite: Grade 11 Financial Accounting Fundamentals - University/College Preparation (BAF 3M0)
