

English, Grade 10 – Academic
ENG 2DL

This course is only available to International Students.

This course extends the range of oral communication, reading, writing and thinking skills that students need for success in their secondary school academic programs. Students will study and interpret texts from contemporary and historical periods, including novels, poems, plays, and opinion pieces, and will analyse and create effective media works. An important focus will be the thoughtful use of spoken and written language. Students will read non-fiction to better understand the author's use of rhetorical strategies and techniques which students could then emulate. This course is intended to prepare students for the compulsory Grade 11 university or college preparation course.
