

Functions, Grade 11 – University Preparation (ESL)
MCR 3UL

This course is only available for ESL students.

- In this course, students learn about: Characteristic of Functions, Exponential Functions, Discrete and Trigonometric Functions
- We do introduce the mathematical concepts of the function by extending students' experiences with linear and quadratic relations learned in Grade 10
- With this course, you can go onto grade 12 University Data Management; Advanced Functions; and Calculus and Vectors. It is recommended that you have an average of 70% to continue in grade 12 University math courses

Prerequisite: Principles of Mathematics, Grade 10, Academic (MPM 2DL) **OR**
Functions and Applications, Grade 11, University/College Preparation (MCF 3M0)
