

Science, Grade 9 – Academic**SNC 1D0**

This course enables students to understand basic concepts in biology, chemistry, earth and space science, and physics; to develop skills in the processes of scientific inquiry; and to relate science to technology, society, and the environment. Students will learn scientific theories and conduct investigations related to ecology and ecosystems; atomic and molecular structures and the properties of elements and compounds; the universe and space exploration; and the principles of electricity.

Prerequisite: None
