

Science, Grade 10 – Locally Developed

SNC 2L0

The focus of this course is the further development of transferrable scientific skills, e.g. testing claims using the scientific method, problem-solving and experimentation, recording and reporting findings. Topics may include, though are not limited to: Science in the Media, Populations Living Together, Chemicals and Their Interactions, Using Electricity.

Students will design and conduct experiments to test a product claim of their choosing. They will also observe how the mixing of certain substances can cause a reaction.

Prerequisite: Science, Grade 9 – Locally Developed (SNC 1L0)
