

Health Care, Grade 12 – University/College Preparation

TPJ 4M0

This course focuses on the development of clinical skills needed to assess general health status. Students will learn about accepted health care practices and about how to perform various procedures, using appropriate instruments and equipment. They will learn about the human immune system, pathology, and disease prevention and treatment. Assessment of the nervous system, pathology and treatment of nervous system disorders will also be emphasized. Students will continue to expand their awareness of workers' health and safety issues, environmental and societal issues related to health care, and postsecondary destinations in the field.

Prerequisite: Health Care, Grade 11, University/College Preparation (TPJ 3M0)
